Resolved issues

This section lists resolved issues included in Tenrox 2014 R2 SP6.

Expenses

CBug000822 & **CBug001251**	**Cannot open a document with special character after uploading it to the Expense Report.** Cannot open an attached document who's name contains special characters (e.g. #) after uploading the file to an Expense Report or Expense Entry. The issue was also happening when attempting to view the Receipt from the View All Receipts and Preview All attachments screens. The issue was resolved for the special character # and the system disallowed uploading files with "&", "+" and "%".
CBug000933	**Error occurs when accessing Expense Report.** When the system contained a very large number of Tax Details, a "subscript out of range error" error occurred when opening an Expense Entry. The issue was resolved.
CBug000986 & **CBug000999**	**Using the Expense Work View, tax calculations on some values could result in an extra penny being added to the gross amount.** Using the Expense Work View, tax calculations on some values could result in an extra penny being added to the gross amount. This was due to a number rounding issue. The issue was resolved.
CBug001029	**The Expense Entry was incorrectly saved when entering, using a French language setting, a net amount value with a decimal point. (CORRECTIONS BASED ON WHAT WAS ON THE TICKET)** The Expense Entry was incorrectly saved when entering, using a French language setting, a net amount value with a decimal point. The issue was resolved.
CBug001115	**Even after an Expense Report has been approved by a group manager, it reappears in their Work List view.** Even after an Expense Report has been approved by a group manager, it reappears in their Work List view as the system was erroneously requesting and awaiting for the project manager's approval. The issue was resolved.

CBug001118   **The gross amount is unexpectedly changed when changing the Expense Item for the Expense Entry.**

The gross amount is unexpectedly changed when changing the Expense Item for the Expense Entry. The issue was resolved.

CBug001172   **The Expense Report's originator was able to submit the Expense Report even though the workflow limits this assignment to the Expense Report creator.**

The Expense Report's originator was able to submit the Expense Report even though the workflow limits this assignment to the Expense Report creator. The issue was resolved.

CBug001311   **The displayed Expense Report listing was incorrectly showing all reports and was not properly corresponding to the selected Cycle filter.**

The displayed Expense Report listing was incorrectly showing all reports and was not properly corresponding to the selected Cycle filter. The issue was resolved.

CBug001459   **Upon attempting to create a new Expense Entry, certain Tasks, expected to be available for selection, were not displaying in the Task list.**

Upon attempting to create a new Expense Entry, certain Tasks, expected to be available for selection, were not displaying in the Task list. Though the Task is associated to the User, the inconsistency of it being scoped, while the User is not, caused the issue, which was resolved.

Integrations

CBug000831 &   **In the CRM Microsoft Online integration, some fields were not mapped**
CBug001247   **to Tenrox correctly.**

Client Email Address, Client Owner, Project Manager, Contact Address Line 2 were not mapped from CRM Microsoft Online to Tenrox correctly. The issue was resolved.

CBug001027 &   **In the CRM Microsoft Online integration, all Projects were imported**
CBug001238   **and exported every time the automation service ran.**

Projects are synchronized to Tenrox every time the automation service
runs. The issue was resolved by preventing Projects to be updated if the
KPI values are zero. The issue is resolved.
